**Women's Audio Mission** is a 501(c)3, non-profit organization dedicated to the advancement of women in music production and the recording arts. In a field where women are chronically under-represented (less than 5%), **WAM** seeks to "change the face of sound" by providing hands-on training, experience, career counseling and job placement to women and girls in media technology for music, radio, film, television and the internet. **WAM** believes that women's mastery of music technology and inclusion in the production process will expand the vision and voice of media and popular culture.
